Homeowner: Mark & Robin Henning

Project: Kitchen Renovation

Solution: The Henning's, are a charming couple with a beautiful lakefront lot, who wanted a total change from their original cramped 1980's kitchen with its gray laminate cabinets and mirrored walls. We bumped into the garage to maximize the floor space and also enlarged the window to maximize the view and the light.

The Henning's Kitchen Before

Dear Kaye & Catherine,

If the kitchen is the heart of the home, you just completed a successful transplant here! Thank you so much for your incredible guidance and expertise. Our kitchen is much more than we dreamed of- and we thought we were aiming high! It's really been a pleasure working with both of you and we were thrilled with the results.
